# **COUNTY TEACHERS'** INSTITUTE

The Mahoning County Teachers' In stitute closed last Friday evening after a most profitable session of four days. The teachers of the county have returned to their work better in every way prepared to perform their exacting duties.

As a part of the community day celebration in connection with the county teachers' institute last Thursday afternoon and evening the winners in the county school war garden contest were announced and given their prizes in thrift and war stamps.

In the county wide contest the gar den of George Ziroff of Boardman drew first prize of three war savings stamps. Francis Yaski of Poland took second of two war stamps, Irving Carnes, Jackson, drew third, Dorothy Kenreich, Green, fourth, Ruth Riley, Canfield, fifth and Theda Tanner, Austintown sixth. The last four were awarded one war stamp each.

The county was divided into units with \$2 in thrift stamps for the first prize and \$1 in stamps for the other Austintown: 1 Imogene Young; 2 J.

Lloyd; 4 Mahlon Creed; 5 Gretta Beaver: 1 Mildred Heck; 2 Christ-

ine Zeigler; 3 Melvin Zeigler; 4 Kenneth Fitzpatrick; 5 William Wolfgang Berlin: 1 Robert Helsel: 2 Ralph Helsel; 3 Robert Ruggles; 4 Forrest Nowell; 5 Myron Hahn. Boardman: 1 Mary McVay; 2 Russell Barger; 3 Carl Barger; 4 Floyd

Barger; 5 Steve Zielinski. Canfield: 1 Byron Christman: 2 Ward Lynn; 3 Edwin Delfs; 4 Helen Skaggs; 5 Leroy Yeager. Coitsville: I Lenus Stolle; 2 Alma

Traenkle; 3 Mabel Vail; 4 Ray Vail; 5 John Bartel. Ellsworth: 1 Bertha Knauf; 2 Es-ther Case; 3 Willard Knauf. Springfield: 1 Lola Felger; 2 Irene

Wolfgang; 3 Olive Johnson; 4 Edna and Eddice Libert; 5 Mabel Myers and Mildred Mollenkopf. Thorn Hill: 1 William Myers: Dorothy Goodman; 3 Florence Vintell; 4 Randall Warne; 5 Olaf Stevens. Lyons' Plat: 1 Rudolph Franken;

2 Lee Libert; 3 Bettie Albrecht; 4 Frances Grunden; 5 David James. 1 Margaret Stacy; 2 Thomas Grist: 3 Olive Westover; 4 Nora Thulen; 5 William Smith. Green: 1 Helen Herron; 2 Ruth Roller; 3 Hazel Calvin; 4 Thelma Bog-

ner; 5 Walter Paulin. North Lima; 1 Cecil Hill! 2 Wilbur Love; 3 Evelyn Weaver; 4, Ada Blosser; 5 Mary Sprinkel. Poland Village: 1 Mildred Johnston;

2 Elizabeth McGill; 3 Theda Henry; 4 Marjorie Cover; 5 Mildred Summers. Science Hill: 1 Randall Dickson: 2 Roy Davis; 3 Anna Donuchie; 4 Alma Lawson; 5 Clingan Jackson. Goshen: 1 Kenneth Owens; 2 Edith Baird; 3 Frank King; 4 Doloris Wil-

liams; 5 Mildred Riley. Sebring: 1 Leone Meyers; 2 Berna dine Shawcross; 3 Alvin Haberland; 4 Franklin LeFevre; 5 Ethel LaFevre. Smith: 1 Bessie Bender; 2 Ross Rierson; 3 Robert Phillips; 4 Irene Polen; 5 Ralph Harris.

#### TUESDAY AFTERNOON Prof. Martzolff delivered a fine ad-

dress on World Movements in History, The best history, he said, is not written in books but is found in the music, four definite functions: 1. It helps present felt a greater interest and schools at any regular or special meet literature, poetry, art and architect. develop the ability to learn. 2. It in enthusiasm in her particular work afture of a race of people. History is spires and calls for the best in our er having heard these important subnever isolated to any particular time boys and girls. 3. Reading is a benand place. History is the story of eficial and pleasurable way to spend man's success in founding five great leisure time. 4. The reading of these institutions-industry, social life, polities, religion and education, all of which activities are most feelingly and successfully portrayed in song, on the canvas, and in the great sculpture. History should not be remembered. but felt. More battles have been won through the power of song, poetry and pictures than in any other way. It is the power of the famous story of Joan of Arc which today inspires the men of France and the historical tales of George Washington at Valley Forge and Yorktown that fire the American school boy of yesterday to become the valiant soldier of today.

In the struggle of man to free himself more fully in all five of these inpicture study, and poetry. stitutions which he has been laboring through centuries to establish, for must be told, not read. When the great revolutions have taken place. Since history teaches democracy, the story is told the teller has the chance progress of a world-wide democracy to get the eye of the audience and thus hold them." can be traced through five great historical revolutions. First the revolution in the mental life of man as embodied in the Renaissance of the 12th that we are looking for but free uncentury. Second the religious revohampered action of the child." lution which brought the Pilgrims to America in 1620. Third the Political ist should be studied. sixty-five years old. With their bayonets they took and held the craters against the German hosts.

Last November thousands of men were lined up to go over the top. Private Ross woke up at sunset with his right leg smashed. After twenty vided into two divisions, concrete and hours he was rescued by a Red Cross man. A nurse gave him a stimulant, were given to make the work interest- Later the Germans bombed the hospital and the nurse was killed but her tendent. body saved Private Gordon-Ross' life. He ended by paying an eloquent tribute to the Red Cross.

#### PROF. MARTZOFF

Prof. Martzolff's speech dealt with the topic-"The Immediate Causes of War." There are two classes of people, those who believe in humanity and those who believe in Material things. These two classes have always been contending. The humani ant than material possessions. The materialists would sacrifice human be ings on the altar of gold. The philosopher's stove still exists. It can transmute humanity into money as the children in the cottonmills in the Southland for less htan a mere pittance. Some materialist is turning human bodies into filthy lucre. The stone can also turn material goods into agents for improvement of humanity.

Churches, schools and all noble in-

stitutions thus bring great returns in the character of men of the commun-'y. A good father is an excellent example of such an humanitarian. This present war is just such a contest between humanitarianism and materialism., The liquor and oplum traffic in this country are representations of such materialism. The Kaiser at Potsdam, upholding his theories of autocracy represents such bitter materialism. The old Germany of Goethe and Schiller sang of love and democracy; the new Prussian Germany advocates hate and material progress. We are fighting against the new Germany. We have almost for gotten the several original causes of this war and are concerned in breaking down absolutism under Wm. Hohenzollern and set up the right of evry man to live and move as he wishes. Democracy has never changed and Thomas Jefferson, listening to the burning words of Patrick Henry when he denounced George III, and later when he worded the immortal Declar ation of Independence, represented the Democrats in the whole world. There is only one religion and that is the religion of Democracy.

#### RULES GOVERNING THE COUNTY SPELLING CONTEST 1918-1919

Rule 1. What School Shall be Eligible. All schools under the jurisdiction of the county superintendent shall be eligible to enter this contest. Rule 2. Date, Time and Place of Hold

ing the Contest. The date, time and place for holding this contest shall be determined by the superintendents of the county

Rule 3. Division for Purpose of These Rules.

All schools under the jurisdiction of a single school board shall constitute a division.

Rue 4. Grades Represented. Each grade from three to eight in clusive shall be permitted to send at least one representative from those districts designated as divisions in Rule 3 and each high school in the county shall be allowed to send one the allies. The marks on his sleeves representative, high school pupils were significant of the time he had taken collectively shall constitute one

Rule 5, Selection of Contestants.

All persons in the grades named in Rule 4 who have missed no words in the written spelling from Nov. 4, 1918 to April 1, 1919, shall be admitted to the contest. In case there are no perfect records ir any one grade or grades, the district superintendent shall select the contestants for such grades by any method he chooses. The selection of alternates shall be option al with the superintendent. In no case shall the alternate spell if the contestant is present. Rule 6. Selection of Words.

The county superintendent shall appoint three persons to constitute a committee for the selection of the words mentioned in Rules 7 and 8. These words shall then be placed in the hands of the county superintendent who shall, at his own discretion, hand them to the persons who shall pronounce them. Rule 7. Words.

One hundred words shall be pronounced to each of grades seven and eight and likewise one hundred to the high school contestants. Fifty words shall be pronounced to each of grades three, four, five and six. In case of a tie, lists of twenty words suitable for the grade in which the tie occurs shall be pronounced to those persons tied. Repeated ties shall be dealt with in the same manner.

Rule 8. Who Shall Pronounce Words. The county superintendent shall ap point seven persons to pronounce the words. He shall assign to each person the set of words he wishes that person to pronounce. Each of the seven persons shall select two assistants All three together shall correct the papers which shall decide the winner of the pennant. Rule 9. What Shall Constitute Tardi-

All contestants who do not appear before the pronunciation of the first word to their respective grades, shall be counted tardy. No excuses for tardiness shall be accepted. Words

Contestants shall be so seated that none can see the written word of the other.

Rule 11, Method of Spelling and Writ-

All words shall be writen with lead pencil on paper. Each contestant shall be required to furnish his own pencil. Paper for the contestant shall be furnished by the county superin-

Rule 12 Method of Pronunciation for Written Spelling.

All words shall be pronounced once, be used correctly in a sentence and pronounced again. After this no word shall be pronounced again. Sufficient length of time shall be given for the writing of each word.

Rule 13. Errors in Writing to be Noted

by Those Who Correct. All words shall begin with a small letter, except proper names. The latter must be spelled with a capital letter. All I's must be dotted and all t's crossed. Failure of the contestant in the spelling of any word to comply with one or more of the requirements of this rule shall constitute a misspelled word. Rule 14. Awarding Pennant.

A pennant will be awarded to the winner of each grade. This pennant shall become the property of the school attended by the pupil winning

#### SOCIAL ITEMS

On Tuesday evening at 8:30 the teachers of Mahoning county and many of their friends gathered in the high school auditorium.

A very efficient social committee had arranged an enjoyable program. The first duty assigned was to get acquainted. Everyone entered into the spirit of the occasion and in a short time the new-comer in our midst felt as much at home as our old friends.

The singing of patriotic songs led by Miss Katharine O'Connor was an enjoyable feature of the evening.

The new teachers were led in a series of contests against the old teachers by Mr. Martzolff and proved to all that we have a live crowd of new teachers. Delicious refreshments were served

by the social committee, after which the guests departed, feeling that each and everyone was a real part of our teachers' organization The entire body extends a sincere

vote of thanks to the social committee for the pleasant evening we en-

The following were elected as offieers of the Institute for the coming year: President, W. M. Coursen; secretary, Ruth Keen.

## REST ROOMS FOR WOMEN

Rural and Town Organizations Cooperate in Establishing Them in Many Marketing Centers.

Rest rooms, where farm women feel free to go for rest and refreshment when they are in town on business, have been established in marketing centers in more than 200 counties in the United States. They have been established by women's rural organizaorganizations, with individuals, with town or city authorities; by business corporations operating private city markets; and by individual merchants. A separate from the Yearbook of the United States Department of Agriculture on this subject gives information on how rest rooms have been established in various parts of the country and how they have benefited rural women while they are in town.

Two main principles underlie the successful establishment and maintenance of rest rooms, says the publication. Either there must be a demand arising from business centers, or there must be a community interest which recognizes their need. Such community interest may be aroused and stimulated by the work of women's clubs. Usually a number of farm women's clubs cooperate in the movement and interest civic leagues or other town organizations. Frequently the local county agent has been interested and his efforts have helped the cause. The number of country women dealing with certain business houses often warrants the establishment of rest rooms by the proprietors to meet the needs of their customers.

In financing rest rooms it has been found that women's organizations do not need to raise funds to maintain the room permanently. They take the initiative in getting it started and create sufficient public sentiment to secure a heated room in a convenient public building or sufficient county appropriations to pay for heat and rent. Janitor service is frequently furnished, and the services of a matron are often secured by a small payment by members of the various clubs or by city organizations. The rest room can be made the center of va rious community activities. When a matron is employed a woman's exchange can be provided. Packages which otherwise would have to carried from place to place can be checked free of charge, and in some cases, particularly on Saturdays and holidays, hot lunches can be served at noon. Some rest rooms are provided with a first-aid equipment for use in emergencies, and this has been found very helpful. Libraries add to the usefulness of many rest rooms.

The usefulness of a rest room depends upon its location, its management, and the feeling of partnership or interest that the farm women take in it. If located in a public building it is likely to be more useful than if located in a private building. Rest rooms convenient to places for hitching teams or parking automobiles near interurban stations, and also convenient to the market, to the grocery, and to the department stores where the country people trade are more useful than those located at some distance.

Also, we do not think a man who wears a celluloid collar in August is entitled to any life insurance

# PAYING FOR THE WAR

The people of the United States must pay for this war. Eeither by taxes or increased cost of living, involving the sacrifice of luxurles and perhaps necessities, every man, woman and child must bear his or her share of the burden,

The easiest way to bear one's share of the war's burden is to own Liberty Loan Bonds. When the war is over the owner of Liberty Loan Bonds will be the nation's creditor and the man who owns no bonds must pay the man who does own them.

Buy Liberty Bonds and thereby help the nation and yourself.

LOVE OF POULTRY AND NATURE AKIN.

Fancier's Impulse is to Produce More Perfect Feather-Markings or Bodily Conformation.

Poultry husbandry has been referred to as the "most fascinating occupation of man." In this connection certain scoffers have had the temerity to suggest that the fascination was largely due to the gambling element embodied therein. But there are thou sands throughout the country who know from experience that the fascination of poultry keeping emanates from another source.

Deep down in the heart of every person there seems to have been implanted by the Creator a certain love of nature which is constantly seeking expression in one form or another. The flocking of the people to the parks with the coming of the first warm Sundays, the love of the child or its nets the housewife with her window full of plants, are all familiar demonstrations of this love of nature. None the levs, so is the backyard poultry plant of the city business or professional man, office worker or

The fancier's joy is a rare one. To commune with nature, to study her laws, to work hand in hand with her in producing still more perfect feather markings or bodily conformation of poultry keeping. If, at the same time, one can materially reduce the now proverbial "high cost of living," and gain rest and recreation from the more strenuous duties of life, why should not the time soon come when a few well-bred specimens of fancy fowl may be found in every back yard in the land?

True it is that many have fallen victims to faise hopes engendered by unscrupulous promoters in the poultry business. But what business has ever been free from the same evils? Those who are in closest touch with conditions in the poultry world are a unit in declaring that the "boom days" of the poultry business are past, that a more sane view of the industry is being taken and that a larger proportion of those entering into it do not expect to get rich between the risin and setting of a single sun.

## CHEAP WAY TO CONTROL WEEDS

One of the best and cheapest ways to control weeds on farms is to keep a flock of sheep. In addition to con trolling weeds without cost, sheep will render a profit by producing nu tritious food and wool, and will assist materially in meeting demands on the Nation for meat and wool production If weeds are not permitted to grow and develop leaves they will die, but it would require a great amount of hand labor to keep most weeds under control by this method. Sheep will keep the weeds down and the more weeds they eat the less will be their cost of upkeep, and the greater will be the supply of feed released for other stock. Many rough or permanent grass pastures that require mowing can be kept clean by the use of sheep, while at the same time the cattle-carrying capacity of the pasture

Such weeds as wild onion, bitterweed, and the ragweeds cause great annoyance to dairymen and milk deal. Till the love of Life's desire These weeds, when eaten by milch cows, give a very disagreeable odor and flavor to the milk, and consequently to all other dairy products. When cows eat weeds in large quantities, the milk is not marketable. The control of pasture weeds is a big problem of dairymen in certain areas.

Stale crackers can be used in th same way as stale bread and stale bread crumbs. They may be combined with other foods and used in place of flour in making many dishes.
